

FOR IMMEDIATE RELEASE

 **FIRESTOPPER**. "Bringing Fire Fighting Into The 21st Century" SM

ECO-FRIENDLY FIRE SUPPRESSION TECHNOLOGIES FOR THE 21ST CENTURY AND BEYOND ARE HERE NOW

FireStopper® introduces their industry changing Technology and Products that will revolutionize the way individuals Governments, Commerce and Industry protect their lives, property and irreplaceable. This is made possible through the World's 1st Personal, All-Purpose Liquid, ECO-FRIENDLY, which are Rated and Listed, effective class (A-B-C-D-K), fire extinguishers, portable system and bulk use concentrates.

With the introduction of FireStopper's New Enviro-Safe® PFE-FR (FFC) Liquid Technology, the World can now have a simplified approach to safety.

For over a century firefighting and suppression application methods and techniques, called for the use of the same old products and technologies. These commonly available and fire-class limited products and equipment, are not proven to deliver a quick and safe termination of the fire emergency. This tired and over-used firefighting system is both inefficient and expensive to the individuals and their community at large and no longer acceptable.

In the current World economic and Environmental crisis, the Public, Commercial Interests, Industry and Governments are keenly aware that they must implement new and efficient methods of protecting the environment, infrastructure, assets, and reduce liability in all economic ways whenever possible.

In contrast with all available portable fire extinguishers and bulk-use concentrates, the FireStopper® line of Fire Extinguishers and Enviro-Safe® Technology, for the first time ever, can afford the consumer the first and only all class effective, A-B-C-D-K (A-B-E-D-F; E.U. Classification), fire suppression products in The World. All FireStopper® portable fire extinguishers are rated and listed, stored and usable in extreme low temperature environments.

 **FIRESTOPPER**. "Bringing Firefighting into the 21st Century" SM

Because of this advancement, you no longer have the burden of identifying different types of fire extinguishers or bulk-use concentrates best suited for your needs in order to protect you and your loved ones during the unforeseen and ever present danger of "Fire". Nor, do you have to wrestle with the problems and expense of identifying whether you need more than one type of extinguisher to complete your total protection and the confidence that you can mitigate any incipient fire emergency.

FireStopper® is here and now available worldwide to provide you the consumer the best, most practical and economical portable fire extinguisher, system and bulk-use products ever devised. With a single FireStopper® Extinguisher, you will be protected against any class of fire you will encounter during any fire emergency.

FireStopper®, is the only Technology and Products that meet and deliver all the above requirements and more...
