Fire Extinguishers In Their Current Form Are No Longer Viable - FireStopper[®] Launches The World's First Eco-Friendly All Purpose Liquid & Effective All-Fire Class Portable Extinguishers

~

FireStopper[®] presents the 1st and only industry changing Fire Suppression Technology and Products; leading the way for Governments, Industry, Commerce & individuals to protect their lives and property with the World's 1st Personal, All-Purpose Liquid, Eco-Friendly, Rated and Listed, effective class (A-B-C-D-K), fire extinguishers, Fire Suppression Systems & Liquid All-Purpose Firefighting Concentrates & hardware.

~

Never before has Governments, Industry and the Public been able to protect lives, infrastructure, assets and irreplaceable from the ever present danger of fire with a true All-Purpose and economic, Eco-Responsible, Non-Toxic, Non-irritant and reliable liquid that can be used in bulk applications, Fire Suppression Systems & portable fire extinguisher. With the introduction of FireStopper's New *Enviro-Safe[®] PFE-FR (FFC), FireStopper AB 40002 (FFC) & FireStopper XL (FFC) Liquid Technology*, the World can now have a simplified, dependable and economical approach to preservation and safety against all fire emergencies.

For over a century firefighting and suppression application methods and techniques, called for the use of the same old products and technologies. These commonly available and limited to fire-class products and equipment, are not proven to deliver a quick and safe termination of the fire emergency. This tired and over-used practice is both inefficient and expensive to the individuals and their community at large and this is no longer acceptable.

With the advent of the current World economic and Environmental crisis, and uncontrollable fire hazards, the Public, Commercial Interests, Industry and Governments are keenly aware that they must implement new and efficient methods of protecting the environment, infrastructure, assets, and reduce liability in all economic ways whenever possible.

In contrast with all available powder-based and AFFF foam portable fire extinguishers, which are classified ABC, BC or single fire class application, the FireStopper[®] line of Fire Extinguishers and liquid concentrates, for the first time ever, can afford the consumer the First

 **FIRESTOPPER** "Bringing Firefighting into the 21st Century"SM

And Only All Fire Class Effective, A-B-C-D-K (A-B-E-D-F; E.U. Class) fire protection products in The World.

Additionally, All FireStopper® portable fire extinguishers are rated and listed and for added value all may be stored and usable in extreme low temperature environments (i.e., freeze resistant to: -100°F to 120°F / -100°C to 48.88°C).

You no longer have the burden of identifying different types of fire extinguishers best suited for your needs to protect you and your loved ones during the unforeseen and ever present danger of "Fire". Nor, do you have to wrestle with the problems and expense of determining whether you need more than one type of extinguisher to complete your total protection and the confidence that you can mitigate any incipient fire emergency.

FireStopper® is here and now available worldwide to provide you the consumer the best, most efficient, practical and economical portable fire extinguisher system ever devised. With a single FireStopper® Extinguisher, you will be protected against any class of fire you will encounter during a fire emergency.

FireStopper®, is the only Technology and Products that meet and deliver all the above requirements and more...
